PROFILE

I am a full-stack developer with three years of experience working in various environments and with different technologies. Recently, I have discovered my passion for front-end development, and I am now focusing my career in this direction.

I am passionate about 3D development for web and mobile applications, as reflected in the projects showcased in my portfolio. I am always eager to explore new technologies and take on challenges that allow me to continue learning and growing professionally.

I am an outgoing and sociable person with strong teamwork and collaboration skills in dynamic environments. I adapt easily to new challenges and am committed to delivering excellence in every project I undertake.
